

BATTERY RECYCLING

Do you know that all work related batteries can be recycled at GSFC? There are various alkaline battery bins around Center. Check the list below to find the one most convenient to you. Alkaline are the only batteries that should be placed in these bins. All other batteries are handled under special waste regulations and should be stored and disposed of properly. Please call the hazardous waste team at x6-9233 for proper disposal.

Building	Room	Building	Room
1	GEWA store	6	W232
2	Loading dock	19	S009
2	2 nd floor/ Mailbox & printers	25	Mailbox Area
3	Loading dock	28	1 st floor canteen
4	143	30	Break room
5	Tool Crib	32	S160
5	Recycle Area	33	Basement by elevator

Note that this is for work related batteries only. Please do not bring your personal batteries from home. Your county of residence should have instructions for personal battery disposal. For tips on home recycling go to <http://recycle.gsfc.nasa.gov> and click on the "Recycle at Home" section.

For additional information or to have a full bin picked up, call the hazardous waste team at x6-9233.

Printed on recycled paper. Please recycle this announcement.
